

Britton Procol

VALVES

MANUAL SLIDE VALVE TYPE M

- Sizes 100-300mm round or square
- Shallow overall depth
- Machined cast aluminium body
- Stainless steel slide plate

SLIDE VALVE TYPE S

- Dust-tight to atmosphere
- Machined cast aluminium body
- Stainless steel slide plate
- Sizes 100-300mm square or round
- Shallow 'pocket' above slide plate
- Screw or pneumatic operation

SLIDE VALVE TYPE L

- Dust tight to atmosphere
- Machined cast aluminum body
- Screw or pneumatic operation
- Stainless steel slide plate & inlet bore
- Sizes 100-300mm round
- Optional pressure/vacuum tight cut-off
- DIN or ANSI flanges

SLIDE VALVE TYPE A

- Sizes 100-300mm round
- Machined cast aluminium body
- 'Clean' internals
- Stainless steel slide plate & inlet bore
- Option to cut through static column
- DIN or ANSI flanges
- Screw or pneumatic operation

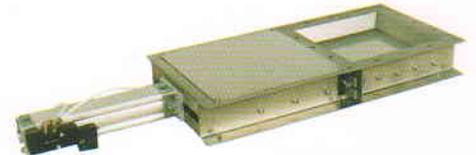

MANUAL SLIDE VALVE TYPE VN

- Sizes 100-300mm round
- Machined cast aluminium body
- Stainless steel slide plate
- For in-line use as an 'emergency valve'
- DIN or ANSI flanges

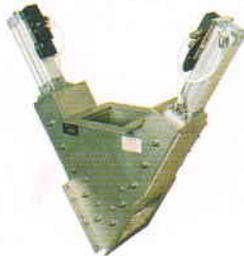

SLIDE VALVE TYPE H

- Mild or stainless steel
- Adjustable felt seal
- Manual, pneumatic or electric operation
- Bespoke valves to any size

GRAVITY DIVERTER VALVE TYPE GD

- Mild or stainless steel
- Sizes 100-300mm square
- Double slide plate design
- Pneumatic operation
- Fully enclosed, dust-tight
- Diverts and stops product

GRAVITY DIVERTER VALVE TYPE K

- Stainless or mild steel
- Pneumatic operation
- Sizes 100-300mm round or square
- Food quality wiper 'seal'
- Two types - heavy or light duty
- 2-way or 3-way

BUTTERFLY VALVES

- Sizes from 50mm to 400mm
- Slim disc designed for powders
- Pneumatic, electric or manual operation
- Various material options available

DIAPHRAGM VALVE TYPE DL

- Suitable for powder or granules
- Aluminium or stainless steel construction
- Choice of diaphragm materials
- Sizes 100-500mm
- Manual or pneumatic operation

Britton Procol - a total valves solution!

ROTARY VALVES

- Sizes from 125mm to 600mm
- Heavy duty construction
- Round and square flanges available
- Various material options available

FABRICATED ROTARY VALVES

- Standard sizes from 125mm to 600mm
- Non-standard sizes available
- Suitable for non-abrasive products
- Mild or stainless steel
- Designed to bespoke applications

HEAVY DUTY BLOWING SEALS

- Sizes from 150mm to 450mm
- Vented or plain inlets available
- Heavy duty robust construction
- Various material options available

LIGHT DUTY BLOWING SEALS

- In sizes 150 and 180
- Suitable for non-abrasive products
- Low headroom design
- Ideal for many food products

TWIN VANE SCALE VALVES

- Sizes from 50mm to 150mm
- Twin actuators for instant response
- Machined internals for tight seal
- Various material options available

SINGLE VANE SCALE VALVES

- Sizes from 50mm to 150mm
- Close tolerance for dust-tight seal
- Robust construction
- Suitable for food processing industry

DRV ROTARY VALVES

- 150mm, 200mm, 250mm and 300mm sizes
- Low cost for use with filters and cyclones
- Direct drive fixed speed
- Round and square flange drillings

BUTTERFLY DAMPERS

- Sizes up to 3m
- Robust heavy duty design
- Pneumatic, electric or manual operation
- Open/closed or modulating operation

CONVEYING DIVERTERS

- Sizes from 50mm to 200mm
- Suitable for granules and powders
- Machined internals for tight sealing
- Pneumatic, electric or manual operation

- Bespoke Valves
- Valves for Waste Recycling Industry
- Automatic Samplers
- Screw Conveyors
- ISO9001 Quality Assured
