ON DEMAND

SMART INVESTMENT.
DEPENDABLE QUALITY.
WE'VE GOT YOUR BACK.

A SIMPLE SOLUTION from 100 YEARS of ENGINEERING EXPERIENCE.

SWECO®, the worldwide leader in round separators, understands the separation process and economic constraints in a competitive world. SWECO's new Classic Round Separator is optimally designed by working with our customers to support a wide range of basic separations.

Available in 30-, 48- and 60-inch diameter models, the Classic Round Separator features a rugged and proven design, backed by SWECO and the industry's most experienced sales engineers.

A round separator with great value, quick delivery, and the performance you are accustomed to receiving from SWECO brand equipment. A straightforward, better investment.

IN-STOCK. YOUR APPLICATION SOLUTION IN THREE EASY STEPS.

1 CONFIGURE

SWECO engineers will analyze application requirements and select optimal components for your needs.

- ⌘ Separating Solids from Solids (Sifting, De-Dusting, Classifying)
- ⌘ Separating Solids from Liquids (Dewatering, Clarifying, Liquid Scalping)
- ⌘ Rates Up to 70 tons/hr and 2,000 gallons/minute – Greater Capacity
- ⌘ Stainless Steel Product Contact

2 DELIVERY & STARTUP

AVAILABLE ON DEMAND. Startup assistance, training and safety review.

- ⌘ On-Site Startup Services to On-going Maintenance

3 SERVICE AFTER THE SALE

SWECO service engineers are committed to supporting you.

- ⌘ Long Machine Life, Low Maintenance, Long Screen Life
- ⌘ On Demand Customer Care with Available Inventory & Rapid Delivery

INDUSTRY ADVANTAGE

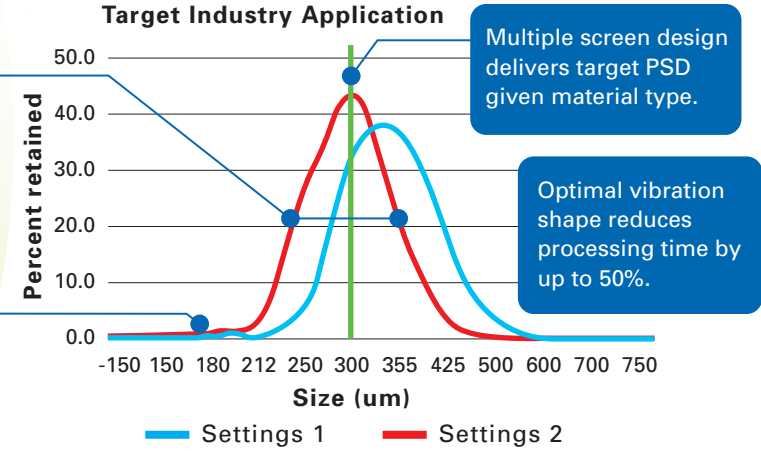

Your process and material separation needs are unique. Our vast application experience, backed by laboratory testing, guarantees outstanding results.

- ⚡ Vibration pattern selection → efficient separation
- ⚡ Settings optimization → maintain quality throughput at high and consistent processing rate
- ⚡ Screen design → configured for enhanced life and higher quality separation
- ⚡ Deck / scalping configuration to meet volume requirements
- ⚡ Optimizing motion and efficiency for your materials and application needs

Optimal settings produces narrow PSD output.

Vibration pattern yields sharp PSD cutoffs.

LET'S GET STARTED MAXIMIZING YOUR INVESTMENT

TOOLS AVAILABLE TO TARGET YOUR NEEDS:

- With a little data we will develop a tailored proposal.
- :: What separation application(s) need a new or better solution?
 - :: What are your separation process requirements?
 - :: What's your timing?

- No Obligation Feasibility Test.
- Free of charge, SWECO® will conduct feasibility on your sample. Report comprises of:
- :: Sieve Analysis or Particle Size Analysis of your materials before and after processing.
 - :: Scaling analysis for your application.

- On-site Demo
- :: Seeing is believing – SWECO will bring a working separator to your site to demonstrate capabilities and address questions.

- Performance Standards
- :: Following Lab Test, SWECO can confirm performance and expected capacity.

- Investment Analysis – competitively priced, plus:
- :: SWECO Warranty
 - :: Engineering Support
 - :: Service
 - :: After sale support (delivery, setup, training)

SUPERIOR SCREENING SOLUTIONS

SWECO offers the widest variety of screen solutions to meet any separation challenge. From spot welded screens to our patented Supertaut® Plus and Fusion™ screens, SWECO can fully validate each screen to ensure highest quality.

Whatever your screening needs – SWECO is the industry standard.

AUTHENTIC SWECO AFTERMARKET PARTS

SWECO separator aftermarket parts are made to tough, precise standards. Careful materials selection, rigorous quality control and unsurpassed manufacturing methods assure correct fit, superior wear resistance and longer service life for everything from covers to motors.

Look to SWECO for authentic aftermarket products for your SWECO separator.

We offer screens that meet specifications from these and other industry organizations.

SWECO has sales agents and/or licensees in most countries.
